13840 PACKARD ST

HOUSTON, TX 77040

Attn: Tony Gamble

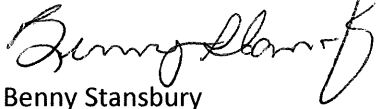

Subject: Reference Letter

To Whom It May Concern:

APEX Consolidated, Inc. assisted Ben Taub General Hospital engineering with all the firestop required at Ben Taub campus. In spite of the construction and challenges, APEX Firestop were able to complete inspection and repairs of more than 50% of Ben Taub facility in a very reasonable time. We also had training done on site, which was great for the team followed by a question and answer session to ensure everyone understood each specific UL detail and what was required to ensure the material was installed properly the first time.

APEX reputation has exceeded our expectations and has helped us maintain our difficult construction schedule. I would recommend Tony Gamble and APEX, Consolidated, Inc. to anyone that needs a comprehensive, responsive firestop company that goes beyond to assist your company's need.

Sincerely yours,

Benny Stansbury
